

Springhill Catholic Primary School  
Enrichment Map

### Our Commitment

In accordance with the DfE Enrichment Framework, Springhill Catholic Primary School ensures that enrichment is strategically planned, inclusive, accessible and responsive to the needs of our school community. Our offer is designed to remove barriers to participation, celebrate achievement, strengthen partnerships with families and external organisations and continuously evaluate impact on pupil outcomes and personal development.

Through a carefully structured programme of experiences, opportunities and leadership pathways, we aim to ensure that every child at Springhill leaves primary school with a strong sense of belonging, enhanced cultural capital, developed character strengths and the confidence to succeed in the next stage of their education and beyond.

| Year/Pillar          | <b>Sport and Physical Activity</b><br>We promote lifelong participation in physical activity through high-quality PE, competitive sport, active play, leadership opportunities and a wide range of clubs. Pupils are encouraged to develop resilience, teamwork, confidence and healthy lifestyles through experiences that extend beyond the curriculum. | <b>Arts and Culture</b><br>Creativity is central to our curriculum and enrichment offer. Through music, drama, dance, visual arts, performances, visits and cultural experiences, pupils develop self-expression, confidence and appreciation of the diverse world around them. We ensure access to high-quality cultural opportunities for all children, regardless of background. | <b>Nature, Outdoor and Adventure</b><br>We believe that learning extends beyond the classroom. Through outdoor learning, educational visits, environmental projects and adventurous activities, pupils build curiosity, independence, problem-solving skills and environmental responsibility. These experiences strengthen wellbeing while fostering a deeper connection with the natural world. | <b>Civic Engagement</b><br>Our pupils are encouraged to become active, responsible citizens who make meaningful contributions to their communities. Through pupil leadership roles, charitable initiatives, community partnerships, social action projects and opportunities to develop their voice, children learn the importance of service, inclusion and democratic participation. | <b>Life Skills and Future Readiness</b><br>We equip pupils with the wider skills needed for success in education, employment and life. Opportunities to develop communication, leadership, teamwork, enterprise, problem-solving, emotional intelligence and resilience are embedded throughout our enrichment programme. These experiences support pupils to become confident learners and responsible citizens prepared for future challenges and opportunities. | <b>STEM</b><br>At Springhill, our STEM enrichment strand inspires curiosity, innovation and problem-solving by providing pupils with exciting opportunities to explore the world around them through science, technology, engineering and mathematics. We aim to nurture the next generation of thinkers, creators and innovators by developing essential skills that prepare children for future learning and careers. |
